PROFILE

Seeking an entry-level position to apply my knowledge of software development, JavaScript, and React.js. Skilled in creating user-friendly web applications and eager to contribute to dynamic and collaborative projects. Dedicated to learning and implementing best practices to deliver high-quality software solutions. Passionate about continuous improvement and driven to stay current with emerging technologies and industry trends.

PROJECTS

E-Commerce Website

- Developed a responsive e-commerce website for shoe sales.
- Implemented user-friendly navigation, product display and secure checkout functionalities.
- Utilized HTML, CSS, JavaScript and Bootstrap for front-end development.

Online Home Rental Platform

- Developed a comprehensive property management system for creating and managing listings with photos and categorized feeds.
- Implemented a booking system with an integrated calendar.
- Designed a responsive, modern UI using Material UI.

Car Dealership Website

- Developed a responsive front-end for a car dealership website using Bootstrap.
- Designed an adaptive layout for optimal viewing across various devices.
- Enhanced user experience with interactive car listings and detailed information pages, ensuring a visually appealing and user-friendly interface.

CERTIFICATION

Front End Development - Coursera
